

CIVIL TRAIN

The Training Division of the CCF

SHORT COURSE

ENVIRONMENTAL AWARENESS FOR CIVIL CONSTRUCTION (including roadside maintenance activities)

Are you working on a civil construction project where your activities are likely to impact on the environment? For DIT contracts, it is a requirement for at least 2 people on site to be trained in this

COURSE OVERVIEW

This course provides construction workers with the knowledge to identify environmental issues associated with their activities and best practice methods to minimise environmental impact and outline environmental legal obligations relevant to construction activities.

This is an approved Department for Infrastructure and Transport (DIT) course and is based on the DIT workbook 'Environmental Awareness for Civil Construction Projects.' It is a requirement for DIT contracts for at least 2 people on site to have undertaken this training.

COURSE OUTCOME

On completion of the course you will be able to:

- Understand common environmental terms
- State legal obligations and responsibilities in relation to environmental management
- Recognise common environmental impacts on construction sites and potential impacts resulting from work activities
- Identify accepted current environmental management best practices for relevant workplace activities
- Identify situations which require further advice about appropriate work practices to minimise environmental damage.
- Awareness of DIT environmental management systems for maintenance.

Upon completion you will receive a Statement of Attendance.

COURSE DURATION

This course is one day (8 hours).

DELIVERY AND ASSESSMENT

This course is delivered and assessed face to face.

LOCATION

Public courses are scheduled frequently at Civil Train SA offices in Thebarton.

Civil Train SA can come to your worksite to deliver **Environmental awareness for civil construction projects (including roadside maintenance activities)** training to a group of employees – please contact the office for a quote.
