

CIVIL TRAIN

The Training Division of the CCF

SHORT COURSE

INSTALL TRENCH SUPPORT

RIICCM210E - Install trench support

Are you required to work around trenches and install trench support in a civil construction context?

COURSE OVERVIEW

Working in trenches is arguably one of the most dangerous tasks undertaken in the civil construction industry.

The primary function of any trench support method is to protect people from caving ground. The secondary function is to provide support to nearby structures and allow equipment access to the work.

You will learn about the effect of different soils and ground types, trenches, control of excavations (benching, battering, shoring) and safe removal of trench support.

COURSE DURATION

This course is one (1) day.

COURSE OUTCOME

On completion of the course you will be able to:

- Plan and prepare for installing trench support
- Install trench shoring
- Remove trench shoring
- Conduct housekeeping activities

If successful you will receive a Statement of Attainment.

DELIVERY AND ASSESSMENT

This course is delivered and assessed face to face.

There are theory and practical training and assessment components to the course.

LOCATION

Public courses are scheduled frequently in Adelaide (Burton) and Perth, and are available in NT on request.

This course can also be delivered regionally – please contact the office for regional locations and dates.

Civil Train can come to your worksite to deliver training to a group of employees – please contact the office for a quote.

PERSONAL PROTECTIVE EQUIPMENT

Enclosed, safety footwear, long pants and long-sleeved shirts with hi-vis are required. Other sites may have other requirements which will be confirmed at the time of booking. Failure to wear correct PPE may prevent the participant from completing the practical training and/or assessment.
