

## RII40720 Certificate IV in Civil Construction Supervision

*Are you working as a supervisor in the civil construction industry, participating in a broad range of jobs?*

### Course Overview

This qualification reflects the role of employees working in supervisory positions in civil construction, performing tasks involving a broad range of varied activities most of which are complex and non-routine. They are responsible for the safety, efficiency and quality of work of others, contribute to the development of technical solutions to non-routine problems and apply management plans to the workplace.

### Delivery and Assessment

There are theory and practical training and assessment components to the course. Skills will be trained and assessed through a mixture of off-the-job and on-the-job training and assessment.

You may be able to seek recognition for your previous studies or experience. Civil Train offers Recognition of Prior Learning (RPL), Recognition of Current Competency (RCC) and Credit Transfer (CT) for this qualification.

### Entry Requirements

Civil Train will conduct a Foundation Skills entry assessment at a level required to successfully complete the qualification and work in the industry at the level required for this qualification. Potential clients who are identified as not meeting course entry requirements will be assisted with referral to appropriate support services.

Entrants will be required to be employed in the civil construction industry and have a Construction White Card prior to starting training on the qualification.

### Course Duration

This program is available as a 24 month Contract of Training. Formal training may be completed in a shorter amount of time.

Contact your local super friendly consultant. They know a bucket load about training for our industry, they'll discuss training methodologies that best suit your business, and they are current with the latest government incentives that may be available to your business.
