

CIVIL TRAIN

The Training Division of the CCF

SHORT COURSE

BASIC LEVELLING (including basic laser safety)

RIICCM208D - Carry out basic levelling

Are you carrying out levelling techniques in a civil construction context?

COURSE OVERVIEW

Levelling is a branch of surveying, and is the process by which differences in height between two or more points can be determined.

Surveying is a profession in itself but contractors and their employees need to have an understanding of the equipment and processes involved in carrying out a basic site survey.

Levelling equipment can include:

- spirit and laser levels
- stringlines
- automatic levels
- survey pegs
- levelling staffs

COURSE DURATION

This course is two (2) days.

COURSE OUTCOME

Day 1: Receive your **Basic Laser Safety** certificate

Day 2: Complete your assessment for the unit of competency. If successful, you will receive a Statement of Attainment.

On completion of the course you will be able to:

- Plan and prepare for basic levelling
- Establish offsets to plans and drawings
- Set up and use levelling device
- Conduct housekeeping activities

DELIVERY AND ASSESSMENT

This course is delivered and assessed face to face.

There are theory and practical training and assessment components to the course.

LOCATION

Public courses are scheduled frequently in Adelaide, Perth and Alice Springs.

This course may be delivered regionally – please contact the office for regional locations and dates.

Civil Train can come to your worksite to deliver training to a group of employees – please contact the office for a quote.

PERSONAL PROTECTIVE EQUIPMENT

Enclosed, safety footwear, long pants and long-sleeved shirts with hi-vis are required. Other sites may have other requirements which will be confirmed at the time of booking. Failure to wear correct PPE may prevent the participant from completing the practical training and/or assessment.
