SHORT COURSE

WORKING AT HEIGHTS

RIIWHS204D – Work safely at heights

Are you working in an industry where you will need to work at heights? This course is recognised by industry, including the mining sector.

COURSE OVERVIEW

'Working at height' is whenever people are at risk of falling from, into or through one level to another or at risk of hitting others below with falling objects.

When working at height, preparation and planning are essential. Falls from height can leave employees with permanent and debilitating injuries. Falls often occur from roofs, scaffolds, ladders, trucks and mezzanine floors or into pits or holes, although falls from less than one metre can result in serious injury.

COURSE DURATION

This course is one (1) day.

COURSE OUTCOME

On completion of the course you will be able to:

- Identify work requirements
- Identify work procedures and instructions
- Access and install equipment
- Perform work at heights
- Clean up work area

If successful you will receive a Statement of Attainment and plastic card to keep in your wallet to show competency.

Industry recommends this course is renewed every two years.

DELIVERY AND ASSESSMENT

This course is delivered and assessed face to face.

There are theory and practical training and assessment components to the course.

LOCATION

Public courses are scheduled frequently in Adelaide, Perth and Alice Springs.

Working at Heights is also delivered regionally – please contact the office for regional locations and dates.

Civil Train can come to your worksite to deliver Working at Heights training to a group of employees – please contact the office for a quote.

PERSONAL PROTECTIVE EQUIPMENT

Enclosed, safety footwear, long pants and long-sleeved shirts with hi-vis are required. Other sites may have other requirements which will be confirmed at the time of booking. Failure to wear correct PPE may prevent the participant from completing the practical training and/or assessment.
